August 22, 2021

A Mileage based navigational road rally. This event will be an introduction to mileage-based course rallying. 100 penalty points will be 'awarded' for each mile that you go off-course.

- For **Intermediate** and **Expert** Classes, the Rally is similar to all Motorsport of North Jersey Events with mileage traps based on the Generals and your abilities.
- For **First Timers** and **Novices**, there will be a lot of extra Helpers and hints. The Rallymaster, Mike Szorentini is designing the route for individuals new to this type of event and will provide helpers to keep you on-course and 'instruct' you on possible upcoming self-correcting route following tricks that you might see later in the event or on the December 5th 'Teddy Bear' Toys for Tots rally.

This event is open to the general public and requires only a car or light SUV/truck, pen/pencil and clipboard or other writing surface.
